

# SATYA SAI FABRICATIONS

PLOT NO: 76,K.K OWNER SOCIETY, PHASE - V, IDA JEEDIMETLA ,HYDERABAD, TELANGANA.  
CONTACT DETAILS: 9246163650, 6281843754.

# WE ARE ENGAGED IN FOLLOWING MACHINERY

Pharma  
Equipment

Chocolate  
plants /  
machinery

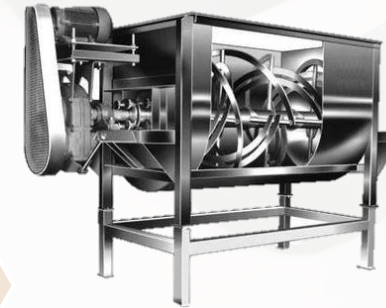

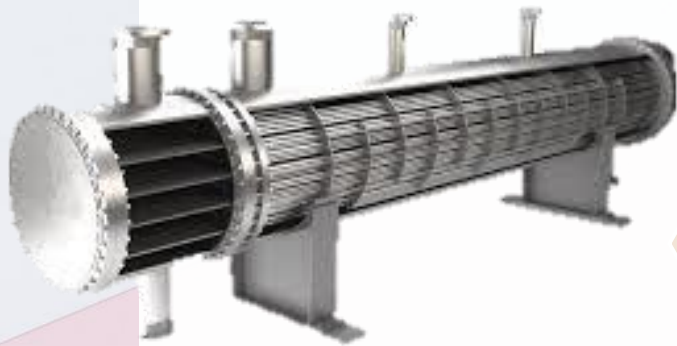

Chemical  
equipment

MANUFACTURING

Food mixing  
And Blending  
machinery

Organic  
Machinery

General  
Fabrications

## COATING PAN

Food coatings

Tablet

Sugar coating

Organic Granules

## RIBBON BLENDER

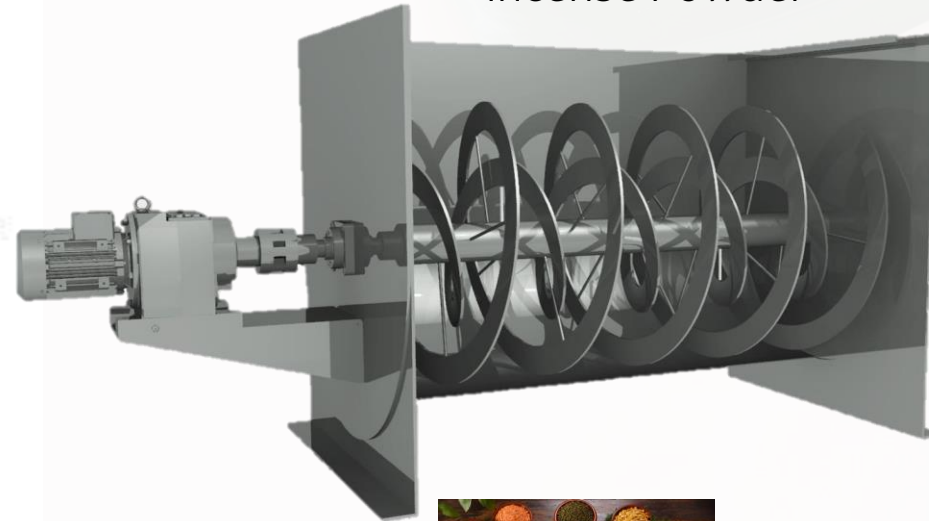

Incense Powder

Color

Fatera

Food

Coating pan is generally used for Coating the desired product, It is available in total SS and it also used for Granules

Blender is used for blending the material to homogenous state. It can be manufactured from 50 kg t 1000kg as per client requirement.

# DOUBLE CONE BLENDER

Food

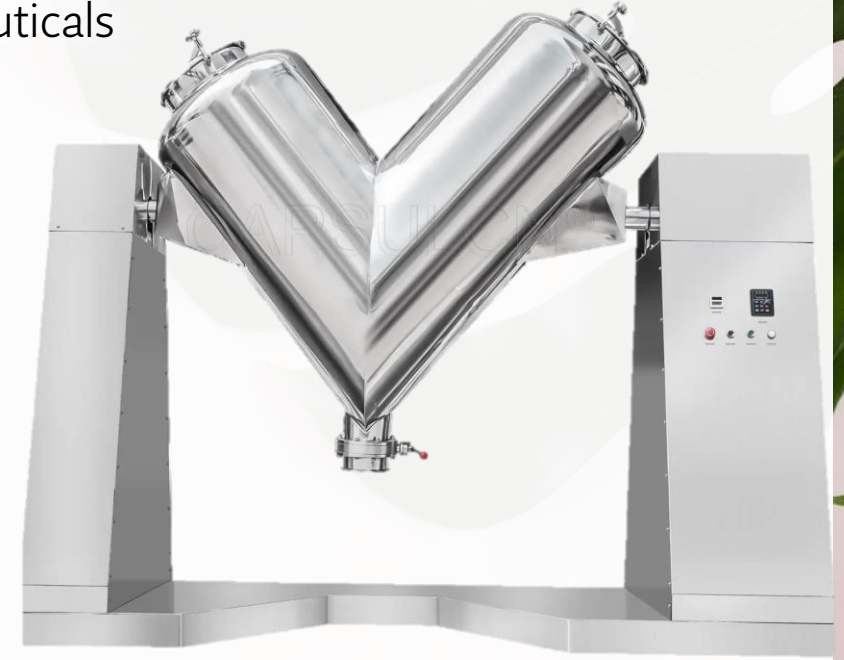

Tea Powder

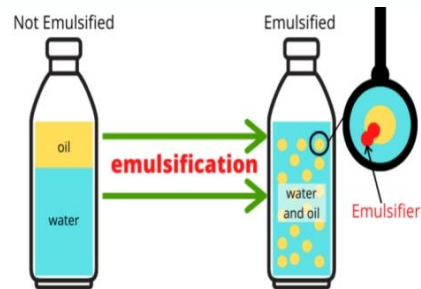

Pharmaceuticals

# V CONE BLENDER

GRANULES

Blenders are used for mixing dry Homogenous products in Food Industry, Pharma industry and many more. These BLENDERS are available from 50 kg to client requirement.

# MIXING TANKS

## AGITATOR TYPES

Mixing Tanks are used to mix, blend, dissolve, disperse, or homogenize materials.

These tanks are used in Chemical industries, Pharma, Organic liquids, Pesticides, Cosmetics and Oils and many more.

**These tanks are available at different RPM and Agitators as per Product. Mfg upto 10kl litres**

## BEAD MILL

Glass beads,  
Ceramic  
beads,  
Zirconia beads  
are used  
according to  
the product  
grinding.

## STORAGE TANK

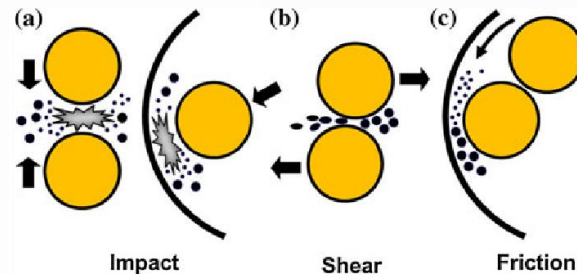

Bead mills are available from 100ltrs to 500litres, Beads are used according to product requirement. We manufacture storage tanks of Stainless steel, Mild steel, FRP tanks according to client requirement. 50litres to 10kl.

# POWDER BALL MILL

BEADS

Powder ball mills are used for making fine powder by using various sizes of alumina beads.

# SCREW CONVEYOR

We manufacture all types of screw conveyors of various lengths and sizes as per client requirement.

## Emamectin Extruder machine

## Drum stirrer

Emamectin benzonate extruder machine with 7.5 hp motor and gearbox  
Drum stirrer with SS base plate with 1HP motor.

## REACTOR & RECEIVERS

We manufacture all types of SS & MS reactors with Jacketed or Lipmet coil up to 10KL of different ratio as per client requirement

## HEAT EXCHANGER

We manufacture all types of shell and tube heat exchangers of various M2 as per client requirement.

# CHOCOLATE BALL MILL/CHOCOLATE REFINING MILL

Metal balls is used for grinding the chocolate

Chocolate ball mill is used forming the chocolate by grinding and mixing the coco butter other ingredients to form chocolate. It generally filled with steel balls to grind the media upto micron sizes.

## TEMPERING MACHINE

- Chocolate Tempering machine is used for to melt, temper, and deposit chocolate for making candies, chocolate bars. Makes chocolate ready for processing
- Ensures a smooth texture and a satin gloss
- Makes chocolate contract during cooling, which makes it easier to Unmould.

## CHOCOLATE MELTING MACHINE

Melting machine is used for storing the processed chocolate by without making it frozen by Heating and mixing the chocolate in frequent time period.

We work on all R&D works,  
Have any Thought / Design regarding any machinery, we  
work on it.  
General Fabrication works also done.
